## You're All I Have

## **Snow Patrol**

Train this chaos turn it into light, I've gotta see you one last night, Before the lions take their share, Leave us in pieces, scattered everywhere, Just give me a chance to hold on, Give me a chance to hold on, Give me a chance to hold on, Just give me something hold onto, It's so clear now that you are all that I have, I have no fear cause you are all that I have, It's so clear now that you are all that I have, I have no fear cause you are all that I have, You're cinematic razor sharp, A welcome arrow through the heart, Under your skin feels like home, Electric shocks on aching bones, Give me a chance to hold on, Give me a chance to hold on, Give me a chance to hold on, Just give me something hold onto, It's so clear now that you are all that I have, I have no fear cause you are all that I have, It's so clear now that you are all that I have, I have no fear cause you are all that I have, There is a darkness deep in you, A frightening magic I claim to, Give me a chance to hold on, Give me a chance to hold on, Give me a chance to hold on, Just give me something hold on to, It's so clear now that you are all that I have, I have no fear now you are all that I have, It's so clear now that you are all that I have, I have no fear now you are all that I have.
