

# Cross the Road

## Magnolia Electric Co.

There's a wolf headed conjurour in the cross roads  
green eyes and alien chant that brought the lightning down  
I set my pulse to the great lakes pulse  
I set my pulse to an electric pulse  
I set my pulse to the short waves pulse  
to wreath the moon in a head dress of neon flames  
must take concentration from that heavy old bird  
blue chicago moon swings like a blade above the midwest's heart  
swings like a blade  
swing that blade above us  
show us how close it can get  
show us close you can get  
show us how fast we can lose it how bad we're out numbered  
set my pulse an electric pulse  
set my pulse to the blues  
them black sad eyes  
if i never see them again tell them goodbye  
and i set my pulse to an electric pulse  
i set my pulse to the blues  
i send my pulse to the vixen's hearts  
i concentrate like that heavy old bird
