

Alone (feat. Anjulie & Jeffrey Jey)

Marnik & KSHMR

Woah, I'm so alone
It's like everybody left without me
Oh, I'm letting go
Feel the headlights crashing, my life flashing
Woah, I'm so alone
It's like everybody left without me
Oh, I'm letting go
Feel the headlights crashing, my life flashing
I see you on my screen, are you just a fantasy?
Maybe you're not even there
Maybe you don't even care
As I stare at my phone
Thinking you could be the one
And I'm done waiting hesitating
Woah, I'm so alone
It's like everybody left without me
Woah, I'm so alone
It's like everybody left without me
Oh, I'm letting go
Feel the headlights crashing, my life flashing
