

Everything Comes and Goes

Michelle Branch

Time is going by so fast
And I can't do anything about it
I've been holding on so long
It's time that I can do without it
Everything comes and goes
I'm always the last to know
And I can see the sun come up
Another day
You were looking for some fun
And I was asking for a heartache
I could turn my head and run
Or I could learn it all the hard way
Everything comes and goes
I'm always the last to know
I can see the sun come up
Another day
You should make up your mind
After all of this time, all this time
Everything comes and goes
I'm always the last to know
I can see the sun come up
Another day
I can see the sun come up
Another day
