

Baby You're My Light

[Richard Hawley](#)

First time the longing in you wears the girl that grows it
And if he relieves you know that then you've blown it
And as life goes on you know you get to taste
All you find
'Cos baby, you're my light
Baby you're my light
Next time the feeling is the same, don't have to show it
A window of belief is where you own it
And as life goes on you know you have to face
All you find
'Cos baby, you're my light
Baby, you're my light
Baby, you're my light
Baby, you're my light
Last time the years have gone the moment's on you know it
But I believe in you and now I'll show it
And as life goes on you know you don't have to hate
All you find
Baby, you're my light
Baby, you're my light
Baby, you're my light
Baby, you're my light
Baby, you're my light
