

Slow Down Love (feat. Chelsea Cutler)

Louis The Child

Painting you picture of the feelings that you never did, ooh
Do you hear the voices in my head Calling for something to know?

Slow it down, love, it's too bright out there

Out there

Hold on, love, you're walking thin air Thin air

Dammit, now if you know you're in or out

Oh, I put too much behind it

Dammit, now if there's something I left out

Oh, I'm in my head, come and find me

Dammit, now if you know you're in or out

Oh, I put too much behind it

Dammit, now if there's something I left out

Oh, I'm in my head, come and find me

All this time I waited on a future that you never did

And despite all the love I gave You wanted something I can't give

Slow it down, love, it's too bright out there

Out there

Hold on, love, you're walking thin air

Thin air

Dammit, now if you know you're in or out

Oh, I put too much behind it

Dammit, now if there's something I left out

Oh, I'm in my head, come and find me

Dammit, now if you know you're in or out

Oh, I put too much behind it

Dammit, now if there's something I left out

Oh, I'm in my head, come and find me
