## Monday Morning Madness (feat. Shannon Hurley)

## Alex M.O.R.P.H.

Monday Morning MadnessThis city life has got me crazy as usual
Everyday is never changing on the streets below
Rushing around to the sound of the city
Rushing around to the sound of a busy worldIts just another dayI hear my heart, I feel it breaking

Every time you go, no time to stop
Youre always leaving me in the cold.
Rushing around to the sound of the city
Rushing around to the sound of a busy worldIts just another day(EXTRA)
The day begins, the fog is lifting, I feel alive
With every step a new beginning I see the light
You left me in the rain
Calling out your name
Pretending you dont matter but Im yours to save.

Youre too cool to care
People stop & stare
But you keep walking like its just another day.
