

# Wasted

## Old 97's

I'm gonna play my guitar 'til my fingers fall off  
sing till my voice is gone  
they might think I've wasted my life they're wrong  
I'm not down with the uptight world  
never gonna be no square  
I'll circle round the edge of the big black void  
but I don't wanna live down there  
I'm better off being wasted  
than working my whole life through  
tonight I wanna get wasted with you  
really it's a pity that you're so hung up  
missin' all the mystery  
you might wanna make a little time with me  
but you gotta get rid of that goddamn phone  
drop it down a wishin' well  
dance on the edge of the big black void  
throw rocks at the gates of hell  
We're better off being wasted  
than working our whole life through  
tonight I wanna get wasted with you  
I'm gonna play my guitar 'til my fingers fall off  
sing till my voice is gone  
they might think I've wasted my life they're wrong  
I'm not down with the uptight world  
never gonna be no square  
I'll circle round the edge of the big black void  
but I don't wanna live down there
