

Reward

Nonpoint

Rooms spin like hurricanes
Walls begin to breath
When will this be over
Like it more
Then I should
Its taking over me
When will this be over
Fighting for you
Struggling for you
Waiting for you
What do I do this for
All for the high
Why do I do this why
All for the high
I rummage through this disaster
To find a reward
Why do I do this why
All for the highTorn in half again
I still feel the same
My head spins like a hurricane
I cant see
Right in front of me
Through the shit inside of me
When will this be over
Fighting for you
Struggling for you
Waiting for you
What do I do this for
All for the high
Why do I do this why
All for the high
I rummage through this disaster
To find a reward
Why do I do this why
All for the highMy head spins
Lost control
When will this be over
My eyes roll
Look inside
When will this be overWhat do I do this for
All for the high
Why do I do this why

All for the high
I rummage through this disaster
To find a reward
Why do I do this why
All for the high
