## **Only One**

## **Sammy Adams**

O-Only one
O-Only one o-one
O-Only one You were so out of my league
like I was lost for words
I couldn't even begin to speak right
not to mention each night
Couldn't seem to spark that conversation
I kept stalling out just waiting
at the green light
g-g-g-green light

push the clutch and finally broke the damn ice Would have done it sooner had I knew you were intrigued by me

Had no idea kept making these excuses
Now you're mine and I'm gon' prove it
I'm gon' prove it, I'm gon' prove it
Just had to say you're the only one
I can't deny it or stall any longer
Girl you have done the impossible

Can't even lie you're the only only one

Ohhhhh Girl you're the only one Ohhhhh Ohhhhh Girl you're the only one Ohhhhh

Girl you're the only only one Girl, you would so be on that fly shit

And I can't even tell you or explain how wide my eyes get

When you walk in the room it's hard to keep a friendly conversation cuz everyone's stuck on my chick my my my my my my chick Everyone look at my chick

She got the touch and moves to make me lose it

when we grinding

She make the room light up but that's the last thing on her mind
Dude told me this would happen I just thought that he was lyingJust had to say you're the only
one

I can't deny it or stall any longer
Girl you have done the impossible
Can't even lie you're the only only one
Ohhhhh
Girl you're the only one

Ohhhhh

Girl you're the only one

Ohhhhh

Girl you're the only only one

Ohhhhh

O-Only one

Ohhhhh

O-Only one o-one

O-Only oneCrazy never thought this would happen

But your love knocked me out

So before I write a flatten

Any question thought or doubt

And now I'm stuck deeper

yup, and I swear it's true

But I can't go out and I can't look around

cuz none of these girls compare to youJust had to say you're the only one

I can't deny it or stall any longer

Girl you have done the impossible

Can't even lie you're the only only one

Ohhhhh

Girl you're the only one

Ohhhhh Ohhhhh

Girl you're the only one

Ohhhhh

Girl you're the only only only one
