

Space Song

Beach House

It was late at night
You held on tight
From an empty seat
A flash of lightIt would take awhile
To make you smile
Somewhere in these eyes
I'm on your sideYou wide-eyed girls
You get it right
Fall back into place
Fall back into placeTender is the night
For a broken heart
Who will dry your eyes
When it falls apart
What makes this fragile world go 'round?
Were you ever lost
Was she ever found?
Somewhere in these eyesFall back into place
Fall back into place
