## **Space Song**

## **Beach House**

It was late at night You held on tight From an empty seat A flash of lightIt would take awhile To make you smile Somewhere in these eyes I'm on your sideYou wide-eyed girls You get it right Fall back into place Fall back into placeTender is the night For a broken heart Who will dry your eyes When it falls apart What makes this fragile world go 'round? Were you ever lost Was she ever found? Somewhere in these eyesFall back into place Fall back into place
