

Next Go Round

Nickelback

I wanna do it 'til the sun comes up
Till we're both so good and sweaty we can't stand up
I wanna do it till we're both about to drop
As long as we're caught in together, we're never gonna stop I wanna go until the neighbors all
complain
'Cause they heard somebody screaming and they think we're both in pain
I wanna go so long your parents think you died
They're gonna call the cops, the CIA and then the FBI Yeah, we're gonna love it when the lights
go down
Hold on here we go
Yeah, we're gonna go until our legs give out
Round and round we go
Yeah, we're gonna do it hanging upside down
Up and down we go
Yeah, we're getting ready for the next go round
Round and round we go
Shut the windows, lock the doors, unplug the phone
For all intents and purposes, there ain't no body home
Then we can do it 'til the batteries are gone
And borrow two from the TV remote to throw this thing back on I wanna cover you with jello in
the tub
We can roll around for hours without ever coming up
I want you naked with your favorite heels on
Slap John Deere across my ass and ride me up and down the lawn Yeah, we're gonna love it
when the lights go down
Hold on here we go
Yeah, we're gonna go until our legs give out
Round and round we go
Yeah, we're gonna do it hanging upside down
Up and down we go
Yeah, we're getting ready for the next go round
Round and round we go
Yeah, we're gonna love it when the lights go down
Hold on here we go
Yeah, we're gonna go until our legs give out
Round and round we go
Yeah, we're gonna do it hanging upside down
Up and down we go
Yeah, we're getting ready for the next go round
Round and round we go
