

Gold In the Summertime

[Matt Nathanson](#)

it's too hot to sleep
laughing in the heat
we lay together
and watch the sky turn
onsirens come in waves
up the fire escape
every shadow disappearing
into dawn.oooooh let's keep this going.
i wanna go all in.
we'll never be lonely in the dark
nobody loves you
the way that i do
the way you shine through
gold in the summertime
summer time, summer time
i gotta get that feeling
we could dodge the rain
in some museum cafe
or run together til the
storm clouds all get gone
wander through the streets
F train to the beach
be in love with being young,
dazzling and lostoooooh let's keep this going.
i wanna go all in.
we'll never be lonely in the dark
roof top in soho
prince on the radio
the city streets glow
gold in the summertime
summer time, summer time
i gotta get that feeling
let me disappear in your love. your love
just to be so near to your love. real love.
