

Lonely Daze

Ginuwine

Oh oh
Can we try
Oh Can we try to make up for the lonely daze?
I love you baby come with me
Tonight I'm gonna make you stay Can we try to make up for the lonely daze?
I love you baby come with me
Tonight I'm gonna make you stay Listen
Sit back relax your mind, your dinner is waiting
The more I see you girl my heart beat is pacing
New lovers mentally we knew what we were thinking
No waiting all night long let's start the love making
Can we try
Can we try to make up for the lonely daze?
I love you baby come with me
'Cause I love you
Tonight I'm gonna make you stay
I'm gonna make you stay Can we try to make up for the lonely daze?
Can we try
I love you baby come with me
Tonight I'm gonna make you stay One chance is all I need to have you forever
I'll wait forever girl until the twelveth of of never
If I could do it all I'd carry your baby nine months long
But I'm a man no doubt darlin' and you are my lady Can we try to make up for the lonely daze?
Can we try to make up for the lonely daze?
I love you baby come with me
Tonight I'm gonna make you stay
I'm gonna make you stay
Can we try to make up for the lonely daze?
All the things I wanna do to you baby
I love you baby come with me
Tonight I'm gonna make you stay I'm tryin' to figure out, what this love thing is all about?
Can we be as one, help me to know your so fine baby be mine
I wanna tell you girl, it's your love I only seek
And it's the one that's meant for G'
Baby I'm sorry please stay don't you leave
Stay don't you leave me Can we try to make up for the lonely daze?
I love you baby come with me
Cause I want you baby
Tonight I'm gonna make you stay
Anything I've done, I'm sorry Can we try to make up for the lonely daze?
I'll climb a mountain, swim a shore
I love you baby come with me

Anything you want from me
Tonight I'm gonna make you stay
I'll give you that and much, much more
Yes I will baby Can we try to make up for the lonely daze?
Come on
If you want I'll kiss the ground that you walk on
I love you baby come with me
Tonight I'm gonna make you stay
'Cause that's just how much I love you Can we try to make up for the lonely daze?
All I ever wanted to do is make you happy baby
I love you baby come with me
Tonight I'm gonna make you stay
Tonight I want you by my side
