400 Lux

Lorde

We're never done with killing time

Can I kill it with you?

'Til the veins run red and blue

We come around here all the time

Got a lot to not do, let me kill it with youYou pick me up and take me home again

Head out the window again

We're hollow like the bottles that we drain

You drape your wrists over the steering wheel

Pulses can drive from here

We might be hollow, but we're brave

(And I like you)

I love these roads where the houses don't change

(And I like you)

Where we can talk like there's something to say

(And I like you)

I'm glad that we stopped kissing the tar on the highway

(And I like you)

We move in the tree streets

I'd like it if you stayedNow we're wearing long sleeves

And the heating comes on

(You buy me orange juice)

We're getting good at this

Dreams of clean teeth

I can tell that you're tired

But you keep the car on

While you're waiting out front

You pick me up and take me home again

Head out the window again

We're hollow like the bottles that we drain

You drape your wrists over the steering wheel

Pulses can drive from here

We might be hollow, but we're brave(And I like you)

I love these roads where the houses don't change

(And I like you)

Where we can talk like there's something to say

(And I like you)

I'm glad that we stopped kissing the tar on the highway

(And I like you)

We move in the tree streets

I'd like it if you stayedWe're never done with killing time

Can I kill it with you?

Til the veins run red and blue

We come around here all the time
Got a lot to not do, let me kill it with you(And I like you)
I love these roads where the houses don't change
(And I like you)
Where we can talk like there's something to say
(And I like you)
I'm glad that we stopped kissing the tar on the highway
(And I like you)
We move in the tree streets
I'd like it if you stayedAnd I like you...
And I like you...
I like you
