

Sex

Sticky Fingers

Early morning, I don't blink or cough
A violent days worth of willing, never hard
Cause my head's getting bigger
And my heart's getting small
In my bed's where I figure
We take it off It's nice having sex
There's no reason at all
In life place your bets
Take it easy when ya fold
How many life's have ya bent? One's plenty broken and stole
Yes it's true, pull the trigger
I'm a bad man from the start
It don't hurt to see, I snigger
And don't care, pull me off
Cause I'm dead, broke, disfigured
And I like it in the dark
Yes I've read your mins acquitted
You want it all
It's nice having sex
There's no reason at all
In life place your bets
Take it easy when ya fold
How many life's have ya bent?
One's plenty broken and stole
