

# Big Bang Two

## Chameleon Circuit

The Doctor's stuck in the Pandorica  
Amy might be dead and Rory's a  
Roman with a gun inside his hand  
Seems like things aren't going as planned  
River's in the TARDIS  
The TARDIS is on fire  
She's feeling the heat  
On repeat she'll require  
Someone she can trust  
Someone with a bow tie  
But he's been locked up  
And left to die  
Oh my God what will they do  
Seems impossible to get through  
My mind is blown I bet yours is too  
Well I guess this is Doctor Who  
Rory's quite distressed and he starts to sob  
When the Doctor appears with a mop  
'Get me out of the Pandorica'  
'But you're not in the Pandorica'  
'Yes I am, well, yes I was, it's complicated  
But I won't explain it now because...'  
Then he disappeared into a hazy fuzz  
That man, I can't explain why he does the things he does  
Oh my God I don't have a clue  
These paradoxes are hard to construe  
My mind is blown I bet yours is too  
Well I guess this is Doctor Who  
It's the Big Bang Two and I need to review  
What on earth just happened before my eyes  
Time has gone askew the universe has too  
I'll try and explain to you the Big Bang Two  
The Big Bang Two  
The Doctor's got River's vortex manipulator  
Which he'll use to meet Rory 2000 years later  
When they find Amy after her sleep in the box  
They realise the sun is really the exploding  
TARDIS  
Doctor saves River from the imitating star  
This woman watches back can't help but point out the obvious  
Oh my God he's wearing a fez  
Oh my God he's wearing a fez  
Oh my God he's wearing a fez  
A Dalek pops up out of nowhere  
Shoots the Doctor kills him quite unfair  
He jumps back 12 minutes to the stairs  
He's dead  
And everyone despairs  
Little do they know the Doctor lies

He's gone stopping the universe's demise  
Amy says her last goodbyes  
Doctor flies up into the skies The universe is back it's true  
But the Doctor's said his final adieu  
Maybe he'll come back if she remembers you It's the Big Bang Two and I need to review  
What on earth just happened before my eyes  
Time has been renewed the universe has too  
But Amy still can't help but cry  
Someone's missing, the question's who?  
Then she remembers  
Something old  
Something new  
Something borrowed  
Something blue  
And that's the Big Bang Two  
I hope it didn't confuse you
