

Stay for It (feat. Miguel)

RL Grime

Save me from myself 'cause I can't go much longer

I just need your help, I just need your help

But I'm getting stronger

When you're by my side, I feel like there's a way

Don't you say goodbye, bye, bye, bye Stay, stay for it

Wait, wait for it

Stay for it Stay for it

Stay, stay, stay

Yeah, uh huh Save me from my pain, replace all my disaster

Believe me, I'm no saint, but I'm learning faster

When you're by my side, I feel like there's a way

Don't you say goodbye

Just stay, stay for it

Wait, wait for it

Stay, stay for it

Wait, wait for it Through the fire, through the fire

Through the fire, you'll follow me

Through the pain and the mad, through the wail of the sorrow I

I will not be afraid if you take my hand

If you stay, if you stay by me Stay, stay for it

Wait, wait for it

Stay for it Stay for it

Stay, stay, stay

Yeah, uh huh

Save me from myself 'cause I can't go much longer

I just need your help, while I'm getting stronger

When you're by my side, I feel like there's a way

Don't you say goodbye
