I get mine, all those blessings in my life Lifting me up to the sky Can't deny, I get mine Although it gets hard sometimes I get back up and I shine Undefeated, I can make it I get mineYeah, I'm riding with the top down Got a really dope flow And I got a dope sound Living life in the fast lane I don't ever slow down Hitting on me, back down Throw that money up when I'm up in the club Niggas tryna hate they ain't getting no love Champagne bottles poppin in the hot tub Its the grand model give a nigga back rubs I get mine, all those blessings in my life Lifting me up to the sky Can't deny, I get mine Although it gets hard sometimes I get back up and I shine Undefeated, I can make it I get mineLiving with the fact that it's gonna be alright Working harder And praying all night Picture the perfect life It's a long way up I'm never giving up Homie I'm just living it up 1, 2, 3, 4

Every winner fall

Gotta stand up tall with my back against the wall I'm representing the fighter who's never quitting yo Steady grinding to the top another level yo
I hate it when you say Genesis 3 yo
Got me wondering
Who put 'em up on a diet
It's the bread life see the light
Just the way I always like
Yeah

Just the way I always like I get mine, all those blessings in my life

Lifting me up to the sky
Can't deny, I get mine
Although it gets hard sometimes
I get back up and I shine
Undefeated, I can make it
I get mineNigga I be out to get money
Ain't about to be sucker or a bum
Putting in this way nigga trying to get a paycheck
Headed to the top, made it, I ain't took a break yet
Yeah I'm bout the Gucci and the Louis and the products
Diamonds on my neck man this shit looking flawless
Every day you're my chick trying to get dollars
Not be in the NOSE yeah I'm chilling with the ballers
Let that money stack up

Nigga headed to the top ain't never gonna stop
Might flick a couple bands cuz this neck is so hard
But just knowing who I am every time I take the spot
Yeah I've been on my grind ever since I was younger
Money on my mind all I ever knew was starting
If I'm putting weight I ain't doing this for nothing
Getting all the things I've been dreaming about and wanting
Nigga you knowI get mine, all those blessings in my life

Lifting me up to the sky
Can't deny, I get mine
Although it gets hard sometimes
I get back up and I shine
Undefeated, I can make it
I get mine
