## **Puscifer**

Wake up, son of mine Momma got something to tell you Changes come Life will have it's way With your pride, son Take it like a manHang on, son of mine A storm is blowing up your horizonChanges come Keep your dignity Take the high road Take it like a man Listen up, son of mine Momma got something to tell you All about growing pains Life will pound away Where the light don't shine, son Take it like a manSuck it up, son of mine Thunder blowing up your horizonChanges come (Changes come) Keep your dignity (Keep your dignity) Take the high road (Take the high road) Take it like a man (Take it like a man) Momma said like the rain (This, too, shall pass) Like a kidney stone (This, too, shall pass) It's just a broken heart, son This pain will pass away
