

# My Moment (feat. 2 Chainz, Meek Mill & Jeremih)

## DJ Drama

You see I been waiting, waiting on that time  
Feel me if you been waiting on yours, that moment is close  
Tired of living day to day like everything is alright  
Just waiting on that moment, waiting on my moment  
Old dude met mom, it was on  
Then he named me over a phone, prison term  
Live and learn, sippin' syrup with my vision blurred  
Take this cup of reality, niggas, finna err  
When you start from the bottom you can see the top  
So when you get to it, don't let 'em see the spot  
Next thing you know you lookin' for a rent sign  
Upper echelon, bitch we skip line  
I remember reminiscing in the kitchen like  
I wonder when the Braves gon' win it  
I wonder when the Falcons gon' get here  
Pyrex vison, made more than I ever made with DTP this year  
Tired of livin' day to day like everything is alright  
Every night just one thing on my mind  
Just waiting on that moment  
Waiting on my moment  
You say how you got that off shit, hell nah  
Next time that's mine, as long as I stay hustling, I'm gon' shine  
Just waiting on that moment  
Waiting on my moment  
Just waiting on my moment, bad hoes I'm shonin'  
Time came and I owned it, just like LeBron James and start ballin'  
When I touch the rock and I cracked the block  
When I pulled up in that muscle drop  
With that roof off and my shoes off, on you bitch niggas,  
RuPaul  
Real nigga in my hood, who everybody gon' root for  
'Cause they see my come from that bottom  
Where everybody get bodied, they told me get 'em, I got 'em  
Now I'm here nigga, like yeah, nigga, just Rolls Royce and Bugattis  
And M4's this year nigga, If I don't grind, I don't shine  
If I don't shine, then I don't eat, won't eat, then I'ma starve  
If I'ma starve, I pull heat, on all y'all bitch ass niggas  
All y'all rich ass niggas 'cause if I don'  
make no money nigga  
I'm gon' take yo money nigga  
Tired of livin' day to day like everything is alright  
Every night just one thing on my mind  
Just waiting on that moment  
Waiting on my moment  
You say how you got that off shit, hell nah  
Next time that's mine, as long as I stay hustling, I'm gon' shine  
Just waiting on that moment  
Waiting on my moment  
Since life ain't promised tomorrow, live it up, live it up, live it up  
Here before it come this far give it up, give it up, give it up

I won't give it up, give it up, give it up  
Until I have it all, yeah Tired of livin' day to day like everything is alright  
Every night just one thing on my mind  
I'm just waiting on that moment  
Waiting on my moment You say how you got that off shit, hell nah  
Next time that's mine, as long as I stay hustling, I'm gon' shine  
Just waiting on that moment  
Waiting on my moment
