

Steep Climb (feat. Zakk Wylde)

Eric Gales

I started out with nothing
But I found a way to make my dreams come true I never said it'd be easy
It's just a part of life that I had to go through
Oh yeah To make it to the top of the mountain
It's gonna be a steep climb
It's gonna be a steep climb When you're lost and you can't find your way back
Try to make it down that upper road
Oh yeah
When you think you can't take it
You've got to stay strong for one mile more
Oh yeah To make it to the top of the mountain
It's gonna be a steep climb
It's gonna be a steep climb Oh yeah
Life can definitely be a steep climb you know
And also life continue to be a little wild
A little Zakk Wylde that is
Show what I'm talking about Solo As I stand on the top of the mountain
I know that the steep climb is done
Oh yeah One thing I have left to do
Is reach out and touch the sun
To make it to the top of the mountain
To make it to the top of the mountain
To make it to the top of the mountain
To make it to the top of the mountain
To make it to the top of the mountain
It's gonna be a steep climb
It's gonna be a steep climb
Oh yeah Solo
