

# The Fear

## Death Grips

I don't know dude, I just—I just drink blood dudeThe fear

(Jump, jump, jump)

I'm gonna kill somebody

(Jump, jump, jump)

Don't jump!Downs you with dull pain

Won't we become strange

Tied up with your legs

Hide helps, on the way

Who will help you fall?

It's just all so frail

So long since we fell

Still don't know we failed

Go for the most tears

Stay cause it gets strange

Went there to shed years

Left there in lead chains

Been there since next year

Scarred us to death chair

Scared us to rest less

Skull full of house guests

The fear

The fearI feel so sick today

I'm afraid to be here with you

You wanna kill somebody

I'm afraid to be here with you

I feel so sick today

I'm afraid to be here with you

You wanna kill somebody

I'm afraid to be here with youDon't jump!

Jump, jump, jump

Jump, jump, jump

The fear

Pulled close by its pliers

Cold, sharp, and expired

Like ribs of vampire

Like winds on high wire

Whips you like it cares

Push you down more stairs

Kicks you for quick laughs

Don't cry you won't last (The fear)

Missing entire weeks

Months gone as I peak

Lost tongue, mystery  
Everyone's on to me (The fear)  
Who's this stole my heels  
Stumbled into hell  
Hates me till it heals  
Wakes me with the chills (The fear)I feel so sick today  
I'm afraid to be here with you  
You wanna kill somebody  
I'm afraid to be here with you  
I feel so sick today  
I'm afraid to be here with you  
You wanna kill somebody  
I'm afraid to be here with youFrightening and embarrassing  
Like one percent and pleasantries  
Gather your things bolt till you reach  
The crystal fields of ketamine  
I'll meet you there, I'll beat you there  
Bet I'll be there before you leave  
Time you get there I'll be midair  
Like peace of mind's a bore to meThe fear  
The fear  
Jump, jump  
Don't jump!When the rail holds you  
Flight like stairs grows you  
Off your mind must wish  
This is not my ditch  
Ah that ditch wears you  
Host torn and worn through  
Hard looks at blank walls  
Held way too long pause  
The fear  
The fear
