

Inhale Exhale (feat. Protoje)

Rebelution

Yeah
Just got an ounce from Oregon, and it's fire wanna inhale, exhale
Yeah, California, Washington keeps it blazing inhale, exhale
Just got some chronic at my spot and I'm ready wanna inhale, exhale
Yeah Colorado well-stocked, keeps me medicated inhale, exhale I'll be the first one to say
Yeah, light it up, I'll be the first one to fade
And spark it up
We're elevated
Nah, I can't complain
It keeps me humble, makes me appreciate
Sweet Mary Jane
You pick me up you make me feel no pain
And when in doubt, inspire me to get out
Sing with my heart I'll take a draw to calm down
Don't have to tell you we don't have to give a reason
We elevate at any time or any season
It keeps me going never feel like I'm defeated
Gives me that feeling I can always count on I'll take the best of what's around it don't matter
wanna inhale, exhale
Yeah, South Side keep it up, keep it blazing inhale, exhale
Just got some Mendo at my spot, and it's fire wanna inhale, exhale
And in the islands well-stocked keeps me medicated inhale, exhale Them propaganda cannot
alter me philosophy
If the ganja proper blaze it hot with no apology
Crush it in my hand this is the plan now if you follow me
Stack it in my van you understand fi make a salary
Colorado, Cali cannabis a the commodity
Babylon them can't get none of this so do not bother me
Highest from Jamaica meets the highest from the West
Yes I am impressed
Na Rebelution pass the rest, check
Don't have to tell you we don't have to give a reason (No reason)
We elevate at any time or any season (Yeah man)
