

# Step Off

## Kacey Musgraves

You sure look real pretty in your glass house  
You probably think you're too good to take the trash out  
Well, are you dumb or are you blind  
Cause it's a real fine line  
Between tellin' a joke and turnin' the knob  
Don't wreck my reputation  
Let me wreck my own  
Step off, step off  
Yeah, you're getting to close to me with all your negativity  
Just, get lost  
Just trying to make a little difference here so why ya gotta interfere  
Just keep climbin' that mountain of dirty tricks  
And when you finally get  
to the top  
Step off, yeah  
You screwed everybody over in this town  
Ain't nothing between you and the cold hard ground  
Keep runnin' your mouth and stretchin' the truth  
And you just might find a hole in your parachute  
Cause what ever gets you high  
will always bring you down  
So step off, step off  
Yeah, you're getting to close to me with all your negativity  
Just, get lost  
Just trying to make a little difference here so why ya gotta interfere  
Just keep climbin' that mountain of dirty tricks  
And when you finally get  
to the top  
Hmm, step off  
Sticks and stones may build a throne  
But you'll be up there all, alone  
So step off  
Yeah, yeah, step off  
Ya keep climbin' that mountain of dirty tricks  
Yeah, when you finally get  
to the top  
Step off, hmmm, just step off  
Step off
