

# Donkey Jaw

## America

Ah, get behind me Satan  
Quit ravishing the land  
Does it take the children  
To make you understand? Ah, all across the nation  
People don't understand  
Does it take the children  
To make a better land? Then, get behind me Satan  
Quit ravishing the land  
Does it take the children  
To make you understand?  
Does it take the children  
To make a better land?
