

# Control

## Metro Station

Another cigarette  
And I'm so bored  
Your words aren't making sense I was taken  
But you were waiting  
One more drink  
And I'm convinced Not one more sound  
Let your hair down  
Take the low road  
No one will know Whoa, I feel just like we're taking control  
Of the night, of the night, yea  
Whoa, I feel just like we're losing control  
But if you let go then I'll let go tonight  
Another minute lived  
If you take me  
I'll take what you will give I was late and  
She kept waiting  
But I hope she knows where I've been Not one more sound  
Let your hair down  
Take the low road  
No one will know Whoa, I feel just like we're taking control  
Of the night, of the night, yea  
Whoa, I feel just like we're losing control  
But if you let go then I'll let go tonight I'm coming down  
Bring me up  
Take it off  
Let's just touch  
Whoa, I feel just like we're taking control  
Of the night, of the night, yea  
Whoa, I feel just like we're losing control  
But if you let go then I'll let go tonight
