

# overbehind

## Flor

Breathe in, it's a lie  
Out of control, it grows wild  
You get me scared  
You can't keep down  
Live and learn  
Turn back around  
Take it in light, you can keep it  
I don't mind, I don't mind  
Keep it in sight, you can leave it  
I don't mind, I don't mind  
Placing it's ghost in your story  
I don't mind, I don't mind  
But you can't live over your shoulder  
Over behind  
It should be easy, still I hide  
I disappoint myself but it's alright  
Take it in light, you can keep it  
I don't mind, I don't mind  
Keep it in sight, you can leave it  
I don't mind, I don't mind  
Placing it's ghost in your story  
I don't mind, I don't mind  
But you can't live over your shoulder  
Over behind  
Ooh, the other side  
I had a dream, what a paradise  
Hidden far from my critical light  
In the dark it'll all feel alright  
Take it in light, you can keep it  
I don't mind, I don't mind  
Keep it in sight, you can leave it  
I don't mind, I don't mind  
Placing it's ghost in your story  
I don't mind, I don't mind  
But you can't live over your shoulder  
Over behind  
Take it in light, you can keep it  
I don't mind, I don't mind  
Keep it in sight, you can leave it  
I don't mind, I don't mind  
Placing it's ghost in your story  
I don't mind, I don't mind  
But you can't live over your shoulder  
Over behind  
Take it in light, you can keep it  
I don't mind, I don't mind  
Keep it in sight, you can leave it

I don't mind, I don't mind  
Placing it's ghost in your story  
I don't mind, I don't mind  
But you can't live over your shoulder  
Over behind You'll be taking it light  
Keep it in sight  
Placing it's ghost in  
You can't live over
