

# Lick My Lips

[Katharine McPhee](#)

Your love, don't need to sugarcoat it  
You make me rush, keep me up all night  
And when I taste it, I want more than just a little bit  
You fill me up, baby, it's so rightGorgeous  
Baby, come on into my open arms  
Your charm

Every time you need me, all my buttons come undoneYou make me lick my lips, you're my  
favorite flavor

When we kiss, I just wanna savor every drop of it  
I can't get enough, you make me lick my lips, my lips  
I'm on top when I'm with you, so exciting  
I can't deny, you make me feel so good  
You're my jam, I wanna turn you up louder  
Now let me see what's underneath that hoodGorgeous  
Baby, come on into my open arms  
Your charm

Every time you need me, all my buttons come undoneYou make me lick my lips, you're my  
favorite flavor

When we kiss, I just wanna savor every drop of it  
I can't get enough, you make me lick my lips, my lipsBaby, you're the only one I need  
Won't you, come and put your lips on me?

You make me lick my lips, you're my favorite flavor  
When we kiss, I just wanna savor every drop of it

I can't get enough, you make me lick my lips, my lipsYou make me lick my lips, you're my  
favorite flavor

When we kiss, I just wanna savor every drop of it  
I can't get enough, you make me lick my lips, my lips
