

Pressure

Khalil

What you waitin' for baby
Get to me 'cause I can get off with ya
So do you get the miles?
This is one thing that we never do
Babe you want to
They're thinkin' that I'm gonna chase but I never do
Swear it feels like a seam in our bag
Prolly don't know where I grabbed it
Now it's like a habit
Girl 'cause I'm falling
And I wind to the folk
Whenever you call it to my ways
Difference like we stylin'
I can never seem to keep nothin'
Well she got it, yeah she gettin' up
Head chain, gimme some
Girl I want some more
I know what
You got it, yeah she gettin' up
Head chain, gimme some
Girl I want some more
I know what you want Girl don't feel the pressure
Don't want the past
Tell me girl where we left us So baby I like to get in
Early when I'm wakin' up
If it's not her today by me when I wake
This hour's another one
If we just keep taking it
Down this road, baby think we're done
'Cause like round and round again
It's like I can lose wind, no girl now no
And I wind to the folk
Whenever you call it to my ways
Difference like we stylin'
I can never seem to keep nothin' Well she got it, yeah she gettin' up
Head chain, gimme some
Girl I want some more
I know what
You got it, yeah she gettin' up
Head chain, gimme some
Girl I want some more
I know what you want Girl don't feel the pressure

Don't want the past
Tell me girl where we left us
