

Switch It On

Will Young

I can see I'm a little unstable
Mystified, I'm tired and unable
To switch it on and switch it off daily
It's OK to say how you see me It's about my time
There's no way
Please, this isn't working
I can't breathe
Got no air now How can I live when I want to be free?
This is my time and these are my needs
It's OK to want before you fall down
You're sending me off on a mission I'm bound Got to, got to, got to go crazy
Can you tell I'm a little bit hungry?
Mr Fabulous don't impress me
He talks to me with a speech without words
With the vowels all missing and the truth unheard Please, this isn't working
I can't breathe
Got no air now It's all about the money
It's all about the fame
It's not about the way you live your life
This is how I'm gonna break it down now How can I live when I want to be free?
This is my time and these are my needs
It's OK to want before you fall down
You're sending me up on a mission, I'm bound Give it to me
Ha!
Can't you see I'm a little bit weary
In a three piece suit and shoes that don't fit me
You're bright-eyed-bushy-tailed pushing it round
No I won't let it go, no I won't stop, won't stop How can I live when I want to be free?
This is my time and these are my needs
It's OK to want before you fall down
You're sending me up on a mission, I'm bound How can I live when I want to be free?
This is my time and these are my needs
It's OK to want before you fall down
You're sending me up on a mission, I'm bound You're sending me up on a mission, I'm bound
You're sending me up on a mission, I'm bound
You're sending me up on a mission, I'm bound Ha!
