

Over Again (feat. G-Eazy)

QUIN

[Intro: Quin]

It's over again[Verse 1: Quin]

Never again, tell me you need me, if you cannot back it up
All I can say is you've been neglecting a good thing
Tonight I be squealing away, you're too quick to get me
It'll take me a lifetime to throw it away, then move on again

[Hook: Quin]

It's over again now, la, la, la, la, la, la
And you're telling me you miss it
Just forget it all

The remedy's escape the memories
Please just forget me now, la, la, la, la, la
Cause you're telling me you miss it baby
Just forgot me now

The remedy's escape the memory

[Verse 2: G-Eazy]

And I cannot forget, no, but neither can you
I mean, clearly, otherwise why'd you be singing this tune?
You'd be singing 'bout somebody new
Infatuation stages, then engagements, maybe they just haven't come through
You're soundin' blue, so you think back, rewind and reflect
When I fell back I was only tryna respect your space
Maybe you're like a [?] mine to collect
I might have missed you that first time around, let's finally connect
Cause you and I both know, regardless if we both call it quits
Could never keep a drink off an alcoholic's lips
We're both addicted to each other, it's nothin' left to cover
It's understood, you'll always be that distant lover, you know[Pre-Chorus: Quin]

But that was just an escape, we'll never repeat that
Since you couldn't get me right, I'll find another guy
I'm not stressin' darling

That was just my mistake, I'll never repeat that, no
Since you couldn't get me right, I'll find another guy

[Hook: Quin]

It's over again now, la, la, la, la, la, la
And you're telling me you miss it
Just forget it all

The remedy's escape the memories
Please just forget me now, la, la, la, la, la
Cause you're telling me you miss it baby
Just forgot me now

The remedy's escape the memory

It's over again now, la, la, la, la, la
And you're telling me you miss it
Just forget it all (just forget it)
The remedy's escape the memories
Please just forget me now, la, la, la, la, la
Cause you're telling me you miss it baby
Just forgot me now, la, la, la, la, la
The remedy's escape the memory [Outro: Quin]
Escape the memories
The remedy's escape the memory, oh, oh
The remedy's escape the memory, oh, oh, oh, oh
Oh, oh, yeah, yeah, oh, yeah
It's over again now
