

# Like We Never Loved At All

## Tim McGraw & Faith Hill

(feat. Faith Hill) You never looked so good  
As you did last night  
Underneath those city lights  
There walking with your friend  
Laughing at the moon  
I swear you looked right through me  
But I'm still living with your goodbye  
And you're just going on with your life  
(chorus)

How can you just walk on by  
Without one tear in your eye  
Don't you have the slightest feelings left for me  
Maybe that's just your way  
Of dealing with the pain  
Forgetting everything between our rise and fall  
Like we never loved at all You, I hear you're doing fine  
Seems like you're doing well  
As far as I can tell  
Time is leaving us behind  
Another week has passed  
And still I haven't laughed yet  
So tell me what your secret is  
To letting go like you did, like you did (chorus)  
Did you forget the magic  
Did you forget the passion  
Did you ever miss me

Ever long to kiss me (chorus) You, you never looked so good
