

Follow the Leader (feat. Jorja Smith)

George the Poet & Maverick Sabre

[1st verse] (George The Poet)

I love my mom but I don't wanna see her right
Now cos she's gonna take one look at me and
Worry about my lifestyle. Don't
Worry about my lifestyle. You
Know your son your son's got a goal
I got this whole thing under control
Yes, I'm losing weight and my eyes are red
Maybe cos I'm a man that lies in bed
Racking my brain for answers cos I've been
Out here running my mouth. Chatting bout
Progress. They say it's a process
But I want it right now. So I gotta
Live this way because to
Play the boss you gotta pay the cost and that
Cost might come as a major loss and that's
Just the life I chose. I don't trust
No one I get no peace. Every day
Petrol from West to East. I love to
Sleep, I love to eat, but I don't
Get no rest or feast and that's the
Reason I ain't afraid of my foes
Jumped on the grind and I stayed on my toes and
Mama believe it or not...
Couple man got a problem with me
Some of the man dem wan rob them for me so
Every time I start writing songs I gotta
Face the things I've been hiding from. They wanna
Ride or die tell them ride along. Just
Know that it's real in the field. I don't wanna
Hear no crying or moaning. I ain't got
Time for no sighing or groaning. You gotta be
Down to grind on your own ting. Just
Follow the leader. Come follow the leader
You gotta be accountable for your own decisions or
You won't get no sorrow with me darg
Follow the leader. Come follow the leader
You gotta be accountable for your own decisions
You won't get no sorrow with me darg
[refrain] (Maverick Savre & Jorja Smith)
Round, round we go
And it's down, down we fall

Round, round we go
If we're dying on the inside
How we gonna live right
Round, round we go
And it's down, down we fall
Round, round we go
Keep your flowers in the sunlight
I just got to live right[2nd verse] (Maverick Sabre)
Flowers by the doorstep
Don't know where they're from
And how did we all get here, yeah yeah
And where do I belong
And anywhere the wind blows
You left me turned to stone
But the sunlight in the window
Telling me you're wrong, you're wrong
[bridge] (George the Poet)
Follow the leader. Come follow the leader
You gotta be accountable for your own decisions
You won't get no sorrow with me darg
Follow the leader. Come follow the leader
You gotta be accountable for your own decisions
You won't get no sorrow with me[refrain] (Maverick Savre & Jorja Smith)
Round, round we go
And it's down, down we fall
Round, round we go
If we're dying on the inside
How we gonna live right
Round, round we go
And it's down, down we fall
Round, round we go
Keep your flowers in the sunlight
I just got to live right
