

# Wanna Sip (Sissel Wincent Remix)

## Fever Ray

I wanna love you but you're not making it easy  
I wanna love you but you're not making it easy  
I wanna love you but it's not easy  
I wanna love you but it's not easy Sometimes my head bangs  
I'm kinda hooked on your scent A funny trick, a head shake  
I wanna peek, I wanna sip  
I show a funny trick, my head shake  
Giving me a peek, giving me a sip  
Wanna do it?  
If we do it, it's my way  
Cuz how you do it when you do it  
It's not okay Sometimes my head bangs  
I'm kinda hooked on your scent A funny trick, a head shake  
I wanna peek, I wanna sip  
I show a funny trick, my head shake  
Giving me a peek, giving me a sip Something made a little opening  
I wanna come inside A bad headache, intoxicated  
I know I've got to let you go  
It goes for all of us  
You're not curious  
I don't think you should hang with us  
Oh, a bad headache, intoxicated  
I know I've got to let you go  
It goes for all of us  
You're not curious  
I don't think you should hang with us
