

# Festering In the Crypt

## Cannibal Corpse

Eyes tied tight forever  
Mouth wired shut forever  
Body parts dismember. You will see no more  
Never...Lowerd into the ground  
You will never hear another sound  
In your coffin you are bound. Underground  
ForeverTo the earth you're now enslaved, to the creatures long depraved  
Flesh has now turned to grey, as the larve gnaw away  
As you rott in your smallish tomb, insects care not how you met your doom  
In your casket eternally lie. Many were pleased to see you die  
Fester  
In the  
Crypt where  
You lieVictims  
Pass by  
They watched  
You die  
Flesh melts off your frame. Infamous was your name  
Years passed since you moved on  
Nothing left but carry on  
Festering in the crypt
