

No Less (feat. Louis Mattris)

[SG Lewis](#)

Follow me my darling, I'm on the rise
See my sons playing on their minds
I believe my darling, feel it inside
See my name above those special nights I believe, I believe, I believe
I'ma be, I'ma, I'ma be the one you need
I believe, I believe, I believe,
and I assure you That I won't settle for no less
Give you my heart, it's no rest
I just wanna do you right
I won't ever want no less
Give you my heart, it's no rest
I just wanna do you right, girl
I just wanna do you right
Follow me my lady
Just follow my lead
To higher grounds don't wait around
If you dare to believe
You'll all I want, and all I want is you
If you're holding on, it's me you hold on to I believe, I believe, I believe
I'ma be, I'ma, I'ma be the one you need
I believe, I believe, I believe
And I assure you That I won't settle for no less
Give you my heart, it's no rest
I just wanna do you right
I won't ever want no less
Give you my heart, it's no rest
I just wanna do you right, girl
I just wanna do you right
And I will bring you on my right
I just wanna do you right, yeah
I won't leave you down and not behind me
I just wanna do you right
I just wanna do you right
I just wanna do you right, girl
I just wanna do you right
I just wanna do you right, girl
I just wanna do you right
