

# Not a Love Song

Donnie Klang

From just looking at your face gives me a natural high  
It's hard not to admit you got me open wide  
I'm so caught up in you girl and there's no alibi  
Pleading guilty 'cause I'm feeling for you And I never felt this way before, girl this isn't typical  
There ain't no cutting you lose  
You're always on my mind, every day and night  
Baby I'm a victim of you And this ain't a love song, love song  
It's just a note to you, I'm just being true, baby this what you do  
This ain't a love song, love song  
You got me losing all my cool, baby I just wanna be with you  
'Cause nobody got me the way that you got me  
My affection is how I'm so addicted to you  
And this ain't a love song, love song  
It's just a note to you, this is what you do  
It's true this ain't a love song Girl, you got me losing all my sense of pride  
Only took one night before I say good bye  
Can't think of a reason why this isn't right  
You really got a hold on me, oh And I never felt this way before, girl this isn't typical  
There ain't no cutting you lose  
You're always on my mind, every day and night  
Baby I'm a victim of you And this ain't a love song, love song  
It's just a note to you, I'm just being true, baby this what you do  
This ain't a love song, love song  
You got me losing all my cool, baby I just wanna be with you  
'Cause nobody got me the way that you got me  
My affection is how I'm so addicted to you  
And this ain't a love song, love song  
It's just a note to you, this is what you do  
It's true this ain't a love song I feel for you, the hands on the clock stop  
When you come around me  
Baby I just can't move, paralyzed by your kiss  
Your lips, them hips, feels like I'm drowning Rain on you, I can't fight you taking over me  
And I can't resisted it  
There ain't no hope, I just wanna let you know this is how it goes  
This ain't no love song And this ain't a love song, love song  
It's just a note to you, I'm just being true, baby this what you do  
This ain't a love song, love song  
You got me losing all my cool, baby I just wanna be with you 'Cause nobody got me the way  
that you got me  
My affection is how I'm so addicted to you  
And this ain't a love song, love song  
It's just a note to you, this is what you do

It's true this ain't a love song  
This ain't a love song, this ain't a love song
