Daisy

The Maine

I picked you up and lifted your wilted frame into the sun
I was taken back, yeah I was taken back
And by the time I caught my breath
You had blossomed into something that I did not expectAnd if it takes all night
I swear I'll wait

For you

ForeverSunlight, sunshine

All for you my daisy

We're getting this before you leave

All for you my daisy

You're a wreck and you know

You've got me wrapped around your finger

Like a boy tangled in vines

But I've figured you outAnd now we're here

We're so confused

And I wish that there was some way that I could tell youAnd if it takes all night

I swear I'll wait

For you

ForeverSunlight, sunshine

All for you my daisy

We're getting this before you leave

All for you my daisyAll for, all for, all for you my daisy

All for, all for you my daisy

All for, all for you my daisy

Sunlight, sunshine

All for you my daisy

We're getting this before you leave

All for you my daisy
