

# Carry Me Down

## Modern English

slipping through the sand and the sand through your fingertips  
silence was the fear and the fear knew me all too well  
waiting at the edge of the sea  
gazing at horizons quite naturally there's something in the air but I know it can't carry me  
you know I won't believe you  
you know I won't believe in time for now  
there's something in the air but I know it won't carry me down the grains of sand which grace  
the land, warm against the sun  
the calming sea holds mystery  
pushing down and down  
riding with the tide  
the sun? me  
there's something in the air but I know it can't carry me  
you know I won't believe you  
you know I won't believe in time for now  
there's something in the air but I know it won't carry me down carry me down  
carry me down questions left unsaid but instead turn their backs on me  
silence was the key and the sea learned its lesson well  
waiting on the edge of time  
the world is on my doorstep there's something in the air but I know it can't carry me  
you know I won't believe you  
you know I won't believe in time for now  
there's something in the air but I know it won't carry me down  
there's something in the air but I know it can't carry me  
you know I won't believe you  
you know I won't believe in time for now  
there's something in the air but I know it won't carry me down  
there's something in the air but I know it won't carry me down

(you know I can't I won't I can't I won't)
