## **Obsessions (Ocelot Remix)**

## **Marina and The Diamonds**

Sunday, wake up, give me a cigarette
Last night's love affair is looking vulnerable in my bed
Silk sheet, blue dawn
Colgate, tongue warmWon't you quit your crying?
I can't sleep

One minute I'm a little sweetheart

And next minute you are an absolute creepWe've got obsessions
I want to wipe out all the sad ideas that come to me when I am holding you
We've got obsessions

All you ever think about are sick ideas involving me, involving you Supermarket, oh, what packet of crackers to pick?

They're all the same, one brand, one name-

But really they're not

Look, look, just choose something quick

People are staring, time to go quick and

Skin is on fire, just choose something, something!

Pressure overwhelming

Next minute, I am turning out of the door Facing one week without food

A day, a day, when things, things are pretty bad

But don't let it make you feel sad

The crackers were probably bad luck anywayCan't let your cold heart be free When you act like you've got an OCDWe've got obsessions I want to erase every nasty thought that bugs me every day of every week

We've got obsessions

You never told me what it was that made you strong and what it was that made you weak ...We've got obsessions

I want to erase every nasty thought that bugs me every day of every week We've got obsessions

You never told me what it was that made you strong and what it was that made you weak(We've got obsessions)

That made you weak, made you weak

Made you weak

(We've got obsessions)

Made you weak, made you weak, made you...Sunday, wake up, give me a cigarette Last night's love affair is looking vulnerable again
