

# Future Is Mine (Solidisco Remix) [feat. Chromeo]

[DJ Cassidy](#)

I saw you lookin' like a diamond in the rough  
I told myself that one night ain't enough  
Then we started talkin, I mean stalkin'  
Lips are locking, remove your stockings  
For me and you girl, one life ain't enough  
But time, is our best friend  
You blow my mind from the beginning to the end  
Our stars aligned, and now your future is mine  
Girl, your future is mine, girl your future is mine  
When the sun comes up, our future's what I'm  
seeing  
When sun goes down, that's when you start believing  
That your only world it could be mine,  
all that I need is time  
When the sun comes up, that's when I get the feeling  
Girl your future is mine  
Face it girls I've seen 2001,  
Still wearing the same things from the 2001!  
But you seemed different, how you living  
You'll handle the business, when I make you my Mrs.  
I can't believe our story's just begun  
'Cause time is our best friend  
You blow my mind, from the beginning to the end  
Our stars aligned, and now your future is mine  
Girl, your future is mine, girl your future is mine  
When the sun comes up, our future's what I'm  
seeing  
When sun goes down, that's when you start believing  
That your only world it could be mine,  
all that I need is time  
When the sun comes up, that's when I get the feeling  
Girl, your future is mine  
One night ain't enough  
From crystal balls to disco balls and we go more  
Until we fall in love  
One life ain't enough  
So, just forget about the past  
'Cause the future is where it's at  
When the sun comes up, our future's what I'm seeing  
When sun goes down, that's when you start believing  
That your only world it could be mine,  
all that I need is time  
When the sun comes up, that's when I get the feeling

Girl, your future is mine  
Your future, your future  
Your future is mine  
Your future is mine  
When the sun comes up  
(Girl, you'll be mine)  
When sun goes down  
(Girl, you'll be mine)  
When the sun comes up, our future's what I'm seeing  
When sun goes down, that's when you start believing  
That your only world it could be mine,  
all that I need is time  
When the sun comes up, that's when I get the feeling  
Girl, your future is mine
