

Let's Get Married

Bleachers

Let's get married
(Sit down, breathe and just listen)
Hey baby, baby
I've been gone I've been gone I've been so far gone lately
I know it's bad when we look out
But bad, bad people
Don't live in our house
So i'm gonna look good for you honey
Get my myself together spend you all of my money
I know it's hard enough to love me
But woke up in a safe house singing honey let's get married
Don't wanna walk alone
So let's get married
I don't wanna walk alone
Let's just get married
Don't wanna walk alone
So let's just get married
'Cause we don't wanna walk alone
Or runaway(Sit down, breathe and just listen)
Oh my honey
They think they know what we're going through they don't know nothing
I know it's bad when we look out
But bad, bad people
Don't live in our house
So I'm gonna get right for you honey
I'll take all of my medicine and spend you all my money
And I know it's hard enough to love me
But woke up in a safe house singing honey let's get married
Don't wanna walk alone
So let's get married
I don't wanna walk alone
Let's just get married
Don't wanna walk alone
So let's just get married
'Cause we don't wanna walk alone
Or runaway
(Hey)Change me at all cost
Starlight is star-crossed
Take me so breathless
We could be reckless
Why don't you change me at all cost
Starlight is star-crossed

Take me so breathless
(We could be reckless)
But woke up in a safe house singing honey let's get married Don't wanna walk alone
So let's get married
I don't wanna walk alone
Let's just get married
Don't wanna walk alone
So let's just get married
'Cause we don't wanna walk alone
Or runaway
(Hey)
