

# Greatest Love

Ciara

[Intro]

It's the greatest love

It's the greatest love

It's the greatest love

Oh, woah, woah, woah, oh

Oh, na na na, na na [Chorus]

You're the greatest love I ever seen

Where you are, I'm gonna be

To top it off, you been there for me

Never change your energy

'Cause only you got what I need

I'll give you everything in me, I'll ride for you

I would do anything, believe, I'll die for you

[Verse 1]

From the first day that I met you, it was special

There was something different 'bout you

Had to pray 'fore, 'fore I jumped into it head first

Ain't an expert but I know I never, ever felt like this

Never, ever been held like this

Never, ever met nobody real like this, oh

I should've known when you took my son as your own

I ain't saying I ain't like all the carats and the stone

It's just your love that I want

Now it's you and me against, 'gainst the entire world, the entire world

I see our love when I look at our baby girl, I'm a lucky girl, oh

[Chorus]

You're the greatest love I ever seen (Greatest love)

Where you are, I'm gonna be

To top it off, you been there for me

Never change your energy

'Cause only you got what I need

It's the greatest love

I'll give you everything in me, I'll ride for you

It's the greatest love

I would do anything, believe, I'll die for you [Verse 2]

I can do this on my own but you won't

Let me, we in this thing together, we got a special bond

For life like mob ties like when you look at me with those eyes, say

You would kill and die to keep me, say

Got me feeling sexy on off days

Things you do, things you say

Baby, I'm following, lead the way

I'm so glad I get to call you bae  
Wish that everyone could feel this way, ayy  
Ask God to take out everything toxic in my life and baby, he did  
Tell me won't He do if it you going through it, baby, don't worry He will[Chorus]  
You're the greatest love I ever seen (Greatest love I ever seen)
