

Used to Love You (feat. Jhené Aiko)

Yuna

I wonder if you think about me
Now that you're out there on your own
You made it seem so easy
I wanna be just like you
I wonder if your heart is healing
You're going out so often now
I see the boys are helping you out
Are they just like you
No regrets, no looking back now
Never left, you let me back down, no, no
Used to love you, used to care
But no more
Used to love you, used to care
But no more
Used to love you, used to care
But no more
I'm better than before
I'll never understand why
I'm depending on a guy
To make me feel like I'm special
Keep running on in circles
I was such a slave for love
I was young and I was foolish
To someone who didn't love me like I do
I was young and I was foolish
And someone will come and love me like I do
