## Out Came the Wolves

11: 30 The muddy water fills the air  
Walking slowly a women standing in the dark  
Why did you come did you come so far  
What are you here to find Boy have you lost your mind  
Boy have you lost your mind  
Boy have you lost your mind Just leave nobody gets what they need  
You'll pay the price and we'll sing  
We'll sing  
Buried alive buried alive  
Just leave nobody gets what they need  
You'll pay the price and we'll sing  
we'll sing  
Buried alive buried alive  
The sun is dying, falling down into the night  
Driving slowly she was kinda not my type  
Why did you come did you come so far  
What a waste of time a waste of time I think she lost her mind  
I think she lost her mind  
She had to die Just leave nobody gets what they need  
You'll pay the price and we'll sing  
We'll sing  
Buried alive buried alive  
Just leave nobody gets what they need  
You'll pay the price and we'll sing we'll sing  
Buried alive buried alive  
Face down the Angels carry you now There's no point of return  
There's no point of return  
This is it this is all that I have left  
Just leave nobody gets what they need  
You'll pay the price and we'll sing we'll sing  
Buried alive buried alive  
Just leave nobody gets what they need  
You'll pay the price and we'll sing we'll sing  
Buried alive buried alive Face down  
Buried alive  
Face down  
Buried alive
