

# Ghost (Viceroy Remix)

## Mystery Skulls

Cause the world might do me in  
It's all right cause I'm with friends  
Cause I'm giving up again  
It doesn't matter And I'm feeling like a ghost  
And it's what I hate the most  
Cause I'm giving up again  
And this time (this time, this time) This time I might just disappear  
This time I might just disappear  
This time I might just disappear  
This time I might just disappear Try and hear me then I'm done  
Cause I might just say this once  
Seen this played out in my dream  
It doesn't matter  
Time for givin' up the ghost  
Fuck it's you I hate the most  
And there is no guarantee  
It doesn't matter  
This time I might just disappear  
This time I might just disappear  
This time I might just disappear  
This time I might just disappear
