

# Psycho Holiday

## Pantera

Empty and sweating  
head lying in your hands  
shaking in the corner  
done too much alcohol  
gotta get away from it all  
'cause it feels my blood is freezing  
my self insanity has taken its toll  
frustration has taken its control  
Now i'm far from home  
spending time alone  
it's time to set my demons free  
been put to the test  
my mind laid to rest  
i'm on a psycho holiday  
Shot down on sight  
you are the target of attention  
one woman here another there  
you can't please all the people all the time  
can't tell the strangers  
from the friends you know  
frustration has taken its control  
Now you're far from home  
spending time alone  
it's time to set your demons free  
been put through the test  
your mind laid to rest  
you're on a psycho holiday  
I'm strapped in for life  
is this where i lived  
or where i died  
you want my money  
you take my space  
my mind is telling me  
to leave this place  
my self insanity has taken its toll  
frustration has taken its control  
Now you're far from home  
spending time alone  
it's time to set your demons free  
been put through the test  
your mind laid to rest  
you're on a psycho holiday

Now you're far from home  
spending time alone  
it's time to set your demons free  
been put through the test  
your mind laid to rest  
you're on a psycho holiday
