

I Got That Love

Chris Walker

Can't nobody love you like you wanna be?
Love, love, love, love
And can't nobody touch you like you wanna be?
Touch, touch, touch, touch But I know everything that I'm capable of
I hope you're ready for me, baby
I may not know it all
But there's one thing I'm very sure of That'll make you leave that man alone, yeah
If he don't wanna give you everything you deserve I got that love, love, good love, nothing less
than great love
If he don't wanna give it to you
I got that love, love good love, takes love to make love
And girl, I got that love for you
He think his money's got a hold on you
An independent woman ain't nothing but a song to him
He feels you're lucky that he's still with you
'Cause he could have selections
It would only be a matter who to choose Whatcha wanna choose?
'Cause you don't have to prove
That you would rather lose it all
Whatcha wanna do?
'Cause if you stay with him
I promise he's gon' do you wrong That'll make you leave that man alone
If he don't wanna give you everything you deserve I got that love, love, good love, nothing less
than great love
Nothing less than the greatest love, yeah
I got that love, love, good love
Takes love to make love, oh, oh
We don't know how far we go
Girl, I wanna give all my love to you
The only thing in between us both
Is the man who's there that doesn't really care for you But I would give you all of me
'Cause girl I know exactly what you need in the morning That'll make you leave that man alone
He think it's money but I know the truth
He think it's jewels but girl, it is you I got that love, love, good love, nothing less than great love
The greatest love, the greatest love
I got that love, love, good love, takes love to make love
It takes that good love, I got that good love I got that love, love, good love, nothing less than
great love
Girl, you know I've got that good stuff
I got that love, love, good love, takes love to make love
And I'm gonna give it to you I got that "Bring it home to your momma" love
I got that "duce me to your parents" love

I got that "Show me off to your friends" love
I got that "Talk about me" got that love, loveThe good stuff
Girl, you know I've got that good stuff
Oh, oh, oh, good love
